# WELCOME

IT'S TIME TO CELEBRATE!

LAURA HUGHES

## Welcome to The Great Hudson River Revival—

A co-project of Hudson River Sloop Clearwater, Inc. and Westchester County—Clearwater's annual celebration of the steady achievements we've made restoring a clean and healthy Hudson River. We also celebrate restored access to the River through Croton Point Park—one of the Hudson Valley's great places—with its stately trees and sweeping lawns down to the water.

Clearwater's annual festival started as a modest folk picnic in 1966 to raise money to fund a crazy idea—to build a boat to save a river. In 1978, Clearwater and Westchester County joined together to take the celebration to a new level of public-private partnership and the Revival was born.

Please join us in celebrating the Great Hudson River and its rebirth this weekend and learn more about how you can join in to restore and sustain our cherished environment and ensure environmental quality for our children and grandchildren.

A MESSAGE FROM THE FESTIVAL DIRECTOR

PHOTOS BY AUGUSTO F. MENEZES

Hello everyone! Welcome to Clearwater's fortieth music and environmental festival.

In June 1966, Pete Seeger entertained about 150 guests gathered on Alexander Saunders lawn in Garrison, NY with a performance of songs to save a river. For four decades since this remarkable and humble beginning, grassroots gatherings have continued spreading song and messages of environmental education and activism throughout the Hudson River Valley and the Clearwater Festival has grown into one of the country's leading environmentally conscious celebrations.

In the tradition of the conscientious, optimistic and expansive folk culture of Depression-era America, we continue to imagine that another world is possible. Wanting to make the world a better place is the single motivation that has kept this unique festival enduring through decades of turmoil and change in the last half of the twentieth century and into the twenty-first.

Today, seeing the historical achievements of the Clearwater organization, one cannot imagine it being possible without the Clearwater Festival.

I'm convinced a new generation that also want change will continue to come together in solidarity into the next century.

Today, seeing the historical achievements of the Clearwater organization, one cannot imagine it being possible without the Clearwater Festival. The Great Hudson River Revival has helped raise funds and served as a beacon bringing awareness in support of America's First River. And it all started as the dream of a single man, Pete Seeger. Thank you, Pete.

And, thank you to everyone, the volunteers and supporters who have made this extraordinary festival possible. And, thank you for joining us in our celebration of the Hudson River today.

RON AJA, FESTIVAL DIRECTOR

# HELP PROTECT AND RESTORE THE HUDSON RIVER

## Our Members are Our Strength

It was nearly 40 years ago, on September 20, 1966, that Hudson River Sloop Clearwater, Inc. was formed as a member corporation. From a dedicated few, our membership grew into the thousands through the years—individuals from throughout the Valley coming aboard and working together to preserve and protect the river, influence decisions that affect the health of the environment in our communities, and extend the network of environmental awareness region wide.

Amazing accomplishments are possible when our voices are combined and act as one:

- The construction and launch of the sloop Clearwater, funded largely by individual donations, brought the plight of the Hudson River before a national audience;

- Membership supports nearly 30% of the costs of Clearwater's education programs, which to date, have touched the lives of more than 430,000 children;

- Clearwater's grassroots perspective and commitment to the environment have been critical to the Hudson Valley's history, from influencing passage of the 1972 Clean Water Act to our ongoing battle to remove toxic PCBs from the river.

Without support from Clearwater's members, none of these achievements would have been possible. To our members, who have made four decades of principled innovations in advocacy and award-winning environmental education possible, we say **THANK YOU!**

WELCOME TO CLEARWATER'S HUDSON RIVER DISCOVERY TENT

AUGUSTO F. MENZES

Thanks to our extraordinary volunteer educators and the energy and visual contributions of the Seekamp Family, the NYS Department of Conservation's Hudson River Estuary Program, the Hudson Basin Riverwatch and expert teacher/fish collector Tim Anderson, we offer you a journey into the beautiful Hudson River—and you won't even get wet!

- Examine Hudson River fish and crustaceans
- Peruse our teacher materials
- Investigate the macroinvertebrate world
- Marvel at a detailed seven-foot Clearwater model
- Sift through the sand for treasures
- Touch a hogchoker
- Create an environmental song parody

Come explore with us!

## A Clearwater Parable

A student goes out on *Clearwater* for a three-hour **Classroom of the Waves** sail in fourth grade. She loves it! The next year, a Clearwater educator comes to her class and writes **Environmental Song Parodies** about the Hudson with them. In sixth grade, her class explores **Clearwater's Tideline Discovery Program** in Ulster Park, NY. A Clearwater educator visits her science classroom in seventh grade and presents the **Pay or Pollute Watershed Challenge**—a simulation game requiring decision-making. In ninth grade, her Social Studies teacher uses **Clearwater's Carbon Calculator** with his class to determine a hypothetical family's environmental impact. In eleventh grade, she **Volunteers** on the boat for a week. During the summer following her senior year, she is an **Education Intern** on *Clearwater*. In her sophomore year at a local college, she participates in **Clearwater's Energy Audit** for college credit. After graduation, she works at an aquarium for a year, using her marine science background with the public. The following year, at 23 years old, she applies for and gets the **Clearwater Onboard-Educator** position. Two years later, she goes to graduate school to get her master's degree in education and becomes a public school teacher. A **Teacher Inservice Course** taught by Clearwater staff reminds her of the importance and learning potential of the Hudson River. She schedules a three-hour **Classroom of the Waves** sail for her students and the cycle is complete!

*Clearwater offers all of the programs in bold above AND MORE! Visit our website at [www.clearwater.org](http://www.clearwater.org) or come to the Discovery Tent for info.*

INDIAN POINT LEAKING RADIOACTIVE WATER INTO THE HUDSON RIVER; CLOSE IT NOW

Stop by Clearwater's Environmental Action tent to find out more about these and other EA initiatives:

- Hudson River PCB Updates
- Hudson River Watershed Alliance
- Environmental Action Liaison Program
- Intercollegiate Energy Audit

Closing Indian Point is the Number One Environmental Action priority at Revival this year because tritium, strontium-90, and other radioactive isotopes have been found in groundwater under the plant, originating from leaking tanks, pools, pipes, and sumps. The radioactive material is, however, moving into the Hudson River, which is a source of drinking water for at least six communities along the Hudson, four of which are in the tidal estuary. Please be sure to sign our Close Indian Point Now petition while you're at the Festival, or an online petition is available at [www.petitiononline.com/cipn2002/petition.html](http://www.petitiononline.com/cipn2002/petition.html).

In August 2005 Entergy discovered radioactive water leaking through cracks in the concrete outer wall of the Indian Point 2 spent fuel pool, but hid this information from the public and elected officials for nearly a month. NYS Departments of Health and Environmental Conservation tests have revealed elevated levels of strontium-90 in a test well near the Hudson River at levels three times higher than EPA limits for drinking water, and tritiated water at 30 to 40 times drinking water standards.

The Indian Point Safe Energy Coalition (IPSEC) has recently ramped up its campaign to close this dilapidated and dangerous nuclear power plant. In addition to radioactive leaks, Indian Point has a terrible safety record and remains vulnerable to internal accidents and external attacks.

In March 2006, nearly 500 concerned citizens showed up to a public hearing on the radioactive leaks held by the Nuclear Regulatory Commission (NRC). Federal legislation requiring an Independent Safety Assessment of Indian Point is pending. A year ago the National Academy of Sciences' BEIR VII report concluded that, because radioactive isotopes bioaccumulate in the food chain, there is NO safe threshold of radiation exposure. The NRC, however, still adamantly refuses to take appropriate action to close this 30-year-old nuclear power plant.

Radioactive pollution, inadequate security, a seriously flawed evacuation plan, and huge fish kills continue to threaten our River and our well-being. Safer, cleaner options, including energy efficiency and renewable alternatives, are abundantly available. Please help us shut down the nuclear behemoth now!

# GREEN PROCUREMENT: A NEW ENVIRONMENTALISM

## Green shopping tips:

- Choose items with little to no packaging.
- Most paper products are likely to have some recycled content. Purchase those with at least a 30% post-consumer recycled content.
- Some disposable products that we use once and throw out have more durable equivalents. Try bringing a few canvas bags to the grocery store or using cloth to clean your house instead of paper towels. Cloth diapers and reusable mugs are another great example of this.
- Always ask a coffee vendor if they have Fair Trade coffee—it's organic and it protects small farmers!
- Purchase food that is certified organic. *Natural* does not usually mean organic.
- Buy local produce, dairy, and fruit because it helps support your local agricultural community and reduces the amount of transportation needed to bring the items from farm to shelf.
- Avoid chemical fertilizers when taking care of your lawn. If you need to use fertilizer, there are organic versions of traditional lawn care products and some without phosphorous.
- Reduce the harmful effects of power plant emissions by using compact fluorescent light bulbs and powering your home with solar or wind energy.
- Buy a fuel-efficient car or hybrid! Fossil fuels are a non-renewable natural resource as well as a contributing cause of global warming.
- Only buy Energy Star-rated appliances. The EPA has approved these appliances as energy efficient and they will save you money on your electric and water bills!
- When building a new house, or renovating one, consult with a green building firm. There are a great many ways to green your home: cellulose insulation; non-toxic paint; sustainable wood flooring; cement fiber board; wood or other alternatives to vinyl siding, which is toxic in its production and incineration.
- Choose a Socially Responsible Investment Firm for all of your investing needs.
- Ask any of the vendors at the Green Living Expo how they can help you to live more sustainably!

ECONSMITH

In order to keep pace with global population growth and technological advances, our awareness of the environment and our consumer choices must evolve at the same rate. A contemporary approach to environmentalism involves integrating our respect for the environment into our daily lifestyle. This is called *green living*. Green living involves *green procurement*, which is the purchasing of products and/or services that are distinguished by either minimizing negative environmental impacts or enhancing positive ones.

How do you go about it? Start by asking yourself, "*Do I really need this product? Is there any way to reduce my consumption, share, or reuse?*" If you do need to purchase something new, look for products or services that utilize recycled content, non-toxic materials, and sustainable energy resources. It *can* be easy and even affordable to support the environment in almost everything we do.

In one day you may drive to a local coffee shop to pick up some java, go to the grocery store to get some fruit, bread and dairy, use an online account to invest and trade, or pay your energy bill. Each time you make one of these purchases, think about choosing the most environmentally conscious option and vote with your dollars. When you choose to live and buy green, you are increasing the demand for green products and services, allowing sustainable industries to grow, and reducing the demand for more harmful products and services.

There are many benefits that come from green procurement. Using energy-efficient and water-saving appliances in the home saves you money on energy bills while conserving resources. Painting your walls using non-toxic paint and installing sustainably harvested wood floors provides for a cleaner, safer and healthier home environment and improved indoor air quality while protecting the Earth's forests and soil.

Every aspect of our lives is impacted by purchases we've made in the past or will be making in the future: from the homes we live in and the cars we drive, to the books we read, the copier and washing machine we use, the stocks we invest in and the food we eat. We have the power as individuals to be the bearers of great change. There is always an opportunity to take advantage of green procurement, by making a decision *for* the environment, instead of against it.

AUGUSTO F. MENCENZES

**GREEN LIVING EXPO PRESENTERS AND SCHEDULE**

SATURDAY, JUNE 17 AT 12:55 P.M. TO 1:40 P.M. ON THE COMMUNITY STAGE

**The Problem: Indian Point Nuclear Power Plant**

*John Hall*, world-class musician and candidate for Congress, 19th District of New York, will sing his hit song "Power!" about the poisonous impacts of nuclear power and fossil fuel, and safer, and cleaner, abundantly available renewables and energy efficiency as a great way to replace them. [www.johnhallmusic.com](http://www.johnhallmusic.com)

*Mark Jacobs*, founder of the Indian Point Safe Energy Coalition (IPSEC), will speak on the leakage of radioactive isotopes from Indian Point into groundwater under the plant and the Hudson River. (914) 739-2742, [mjac@concentric.net](mailto:mjac@concentric.net); [www.ipsecinfo.org](http://www.ipsecinfo.org)

*Lisa Rainwater Van Suntuum* of Riverkeeper will describe the urgent need to close Indian Point -- or at least assure this aging and unsafe facility is NOT relicensed! (914)478-4501 ext. 221; [www.riverkeeper.org](http://www.riverkeeper.org)

SUNDAY, JUNE 18 AT 11:55 A.M. TO 12:40 P.M. ON THE COMMUNITY STAGE

**The Solution: Safe, Clean, Abundant Sources of Energy Efficiency & Renewables**

*Charles Lazin*, Altren Consulting & Associates: Ground Source Heat Pumps: geothermal heating and cooling systems. (845)658-7116; [www.altren.net](http://www.altren.net)

*Rick Lewandowski*, Direct Global Power, Let the Sun Shine: Solar as A Solution. (845)687-2406; [www.directglobalpower.com](http://www.directglobalpower.com)

**Sunday Workshop: Veggie Oil "Installathon"** The price of gasoline is at an all-time high and, in these post-peak oil times, oil reserves are dwindling. Tim Hunter and Mike Esterson of the Hudson Valley Biodiesel Coop will declare their energy independence by converting two vehicles to use Waste Vegetable Oil (WVO) as their primary source of fuel. They will drive in on "dino-diesel" and out on waste canola or soy. This day-long workshop will be held just past the Activist Area, next to the Recycling Tent. Festival goers are encouraged to participate, ask questions, and bring used cooking oil.

For more info: <http://groups.yahoo.com/group/HVBIODIESELCOOP/> or (845)255-2323

**ALSO FEATURING**

Community BioFuels, LLC with Jerry Robock, member of the Hudson Valley Biodiesel Co-op, demonstrating a biodiesel processor and presenting information about making and using biodiesel and building a biodiesel processor.

A variety of alternative-fuel and hybrid vehicles will be on display beside the Green Living Expo tent. Stop by and check out the exciting offerings!

 Pam Wieder - spinner of wool, cat and dog hair; custom spinning services [pamwieder@yahoo.com](mailto:pamwieder@yahoo.com)

#### Pinch Pot Workshop

A pinch pot is made by slowly and carefully stretching a lump of clay until it becomes a shape that reflects the patience and mind of the maker. No experience needed and all are welcome! Mika Seeger - potter and muralist. 580 Cornell Rd., Tiverton, RI 02878

### Rain Stick Workshop

Gather around and make magic rain. Make Children's Rain sticks. Kids & Crafts, Jam Sessions

### Jugglers & Clowns Vaudevillians play at the Festival

To amaze, entertain, and teach the Art of Juggling. Our most popular attraction is back sticks with a bunch of guys throwing many balls and sticks in the air all weekend long. Come by and help them throw stuff in the air or at each other. Find the Juggling Area on your way to the Working Waterfront.

Bring on the Clowns. Waffles the Clown will be clowning around the main gate. And what would a festival be without a stilt walker, funny vaudevillians Paul Richmond and Bill Ross, and Roger the Jester and the rest goofing around.

### Walkabout

#### Clearwater Chorus

Supporting the Clearwater mission with their voices, this community of friends and neighbors comes together to sing the songs of the people for other people.

**TIMES & LOCATIONS:**

Saturday 1pm & 5pm/Rainbow Gate  
Sunday 12pm/Rainbow Gate  
Sunday 3pm & 5pm/Rainbow Gate

**Circle Of Song**

Pete and Toshi Seeger came up with the name around 1979 or '80. And the focus of the stage has always been the community of people living and working by, on and for the Hudson River signing together. This year the Circle of Song will return to its roots—audience participatory. There will be no sound system or stage to separate the audience from the facilitators for the various workshops that we have scheduled. We are having a Round Robin Song Circle Hootenanny. The Circle of Song is about the music not the performers. We hope you enjoy Circle of Song. Feel free to tell us what you think.

**SATURDAY JUNE 17**

# An Active Working Waterfront at the Clearwater Festival!

GET IN A BOAT ON THE GRAND OLD RIVER!  
EXPERIENCE THE PLEASURE OF BOATING ON THE HUDSON RIVER!  
RIDE IN A SMALL BOAT, A KAYAK, OR SAIL ON A TALL SHIP!

ECONSMITH

AUGUSTO F. MENEZES

"There is nothing—absolutely nothing—half so much worth doing as simply messing about in boats."

—Kenneth Grahame, *The Wind In the Willows*

**Small Boats** are always a major Clearwater Festival feature. We first displayed the work of builders and boat building schools. Thousands of Revival visitors were able to see this work. Over the years, with much success, exhibitors and boatbuilding schools found broader markets; their participation in Clearwater's Festival shrank. We took a new approach.

**Working Waterfront** is the new approach: We use small boats on the water, rather than just show them! Individuals and groups give each other and the public a chance to row, sail, and paddle vessels after proper instruction under safe conditions. That way, members of the general public can experience the pleasure of boating on the Hudson River. Clearwater, founded on the water; helps make festival attendees aware of our roots.

## Sail on a tall ship!

SLOOP CLEARWATER is a replica of a 19th century Hudson River sloop, and THE SCHOONER MYSTIC WHALER is a traditionally rigged 19-c. trading schooner. Go out for a two-hour sail on one of these tall ships during the festival. Tickets can be purchased at the Clearwater membership tent.

# sloop clubs

Sloop Clubs are affiliates of the Hudson River Sloop Clearwater organization, dedicated to carrying out the organization's purposes in their own locations through education advocacy, celebration and often by sailing. Each club has its own character and emphasis: raising public awareness of the river as a natural and recreational resource; promoting sound ecological practices; and educating about watershed ecology, responsible and irresponsible uses of natural resources, and methods of remediation of existing problems.

Sloop Clubs support knowledge and love of the river through concerts, festivals, lectures, publications, potluck dinners, picnics, and sailing programs. Contact a club in your area for more information about specific activities and meetings.

### SOUND SLOOP CLUB

Currently building one of the 26-foot "Floating the Apple" type gigs, at the Oaks in New Rochelle. The past two summers the club has used the gig and other nautical items with inner city youth groups. [lsmithcapital@yahoo.com](mailto:lsmithcapital@yahoo.com); Len Smith: (718) 885-1503.

### ULSTER COUNTY FRIENDS OF CLEARWATER

(formerly Hudson-Rondout Sloop Club) Also serves parts of Dutchess & Greene counties. Summer sailing, August Camporee on an island in the river. Winter Work Day on the Clearwater in Saugerties, plus shore support for the crew. Newsletter: Tributaries. Sloop: the Rondabout. [sjmurphy@hvc.rr.com](mailto:sjmurphy@hvc.rr.com); Susan Murphy: (845) 246-0697.

### WALKABOUT CLEARWATER CHORUS

Takes Clearwater's message where the boat cannot go, with song and a 7-foot scale model of the Clearwater. Performs at Revival, up and down the East Coast and Germany. "The best forecaster for life."  
Holly Fernando, MD

"She is the best psychic for homicide work, the incredible details blew the detectives' socks off, and the case went to prosecution from a cold file." P.V., Captain Homicide

"After sitting with Marisa, my left breast, that had been removed from cancer, had no more pain, and she was right, I had no more cancer since." A.E., MD

"After speaking with Marisa by phone, the next day the doctors were stunned how my life-threatening metabolics had changed to normal. They said it was impossible, as I needed weeks of saline infusions and meds for that type of change." SC, CSW

"She couldn't have known about my personal life, and my sons." Joe Franklin, Radio Host.

"We didn't know what to do with time out of our lease. We packed and waited to hear, and received the last day, by messenger, he was given the job in a N.C. Law firm that Marisa said he would receive at the last hour."

Heard on WPDH 101.5 FM for world news warnings, and all predictions that came true in 2004, (replayed on radio Jan 3, including Asia area Tsunami, also new predictions for 2005 that have already happened...Avalanches in Colorado, Utah, and California Sierra mountains (Big Bear), and huge mudslides in California, huge sink holes in Florida, three more earthquakes in Sri Lanka and in California, and more.

# about our sloop

## ITS HISTORY AND ACHIEVEMENTS

**LAUNCHED:** May 17, 1969 Gamage Shipyard in South Bristol, Maine. More than 2,000 people attended. The sloop was christened with a bottle of Hudson Valley champagne as the crowd sang "This Land is Your Land" and her 100-ton hull slid into the water.

**COST:** Initial construction, funded primarily through benefit concerts with Pete Seeger and a close-knit group of musicians/environmental activists, including Don Maclean ("American Pie"), Gordon Bok ("Another Land Made of Water") and Louis Killen ("Death of Nelson"), cost \$140,000. Major repairs for the bow, beams, frame, and cabin were required in the mid-1970s. A \$2.6 million restoration began in 2001. This winter *Clearwater* received a new foredeck, standing rigging, generator and fire pump, and many upgrades to her electrical system. Thanks so much for everyone's donations and hard work.

**HOMEPORT:** New York, NY. The *Clearwater* organization's offices are in Poughkeepsie, NY. The sloop winters in Saugerties, NY and visits docks from Albany and Rensselaer in the north to New York City, Long Island Sound, and the New Jersey Coast during the sailing season.

**PARTICULARS:** The *Clearwater* is a Gaffed, Rigged Sloop and was among the first tall ships to offer experience-based environmental education. Our program has been the template for vessels all over the world, teaching science-based stewardship. More than 430,000 young people have experienced their first real look at an estuary's eco-system—including fish, invertebrates, water chemistry, and ecological principles—aboard the *Clearwater*. Many river groups across the country and around the world trace their origins to the example of *Clearwater's* work. The sloop was named to the National Register of Historic Places in 2004.

**CONSTRUCTION:** Made of traditional plank-on-frame wooden construction, the *Clearwater* is a full-scale replica of a classic mid 19th-century Hudson River Sloop, such as the *Victorine* of 1848. It is the only such reconstruction of this important class of vessels that moved cargo up and down the Hudson.

Chris Bowser

**NUMBERS:** 75 feet in length on deck, 25 feet in beam, and 6.6 feet depth of hold, with a displacement of 70 tons. Her sloop rig consists of a single mast and fidded topmast which together rise to a height of 108 feet, a 65-foot long main boom and a 28-foot long bowsprit. The *Clearwater's* sail plan consists of a gaff

mainsail, a jib and a triangular topsail, which together total 4,305 square-feet of sail area. Her overall length is 106 feet.

**PASSENGERS:** Coast Guard licensed for 70 persons. Carries a complement of 18 crew leaving room for 52 guests.

WE PLOW OUR PROFITS  
BACK INTO THE EARTH.

**Organic family farmers on a mission**

We founded Organic Valley in 1988, seven farmers who shared a love of the land and a belief that a new, sustainable approach to agriculture was needed in order for family farms and rural communities to survive. As more and more family farms were threatened with extinction, we set out to create a cooperative solution.

That solution has grown into the leading organic farming cooperative in North America. We still stand today as an organic label solely owned and operated by organic farmers.

Partnering with citizen consumers, we've built a stable, equitable and sustainable pay price for our farm-fresh organic milk, cheese, eggs, soy, produce and meat. In return, delicious, wholesome food has returned, in healthful style, to America's table.

And, unlike a publicly traded corporation, we own our cooperative and are free to hold ourselves to the strictest of standards: that our efforts always, at the end of the day, profit the earth. [www.organicvalley.coop](http://www.organicvalley.coop)

### ACCESS PROTOCOL AND SERVICES

Marked areas close to the front of stages are reserved for people w/disabilities in wheelchairs and hard of hearing to better see sign language interpreters on stage. Braille, large print programs, and wheelchairs for short term use are available at the Access Hospitality Tent.

### WATER & ICE

Cold, bottled water sold at Water Stations. Ice is for sale at the ice truck behind Food Court.

### INFORMATION / LOST & FOUND

Message board, Lost & Found (objects and people), and information on area service (gas, ATMs, markets, restaurants, train schedules).

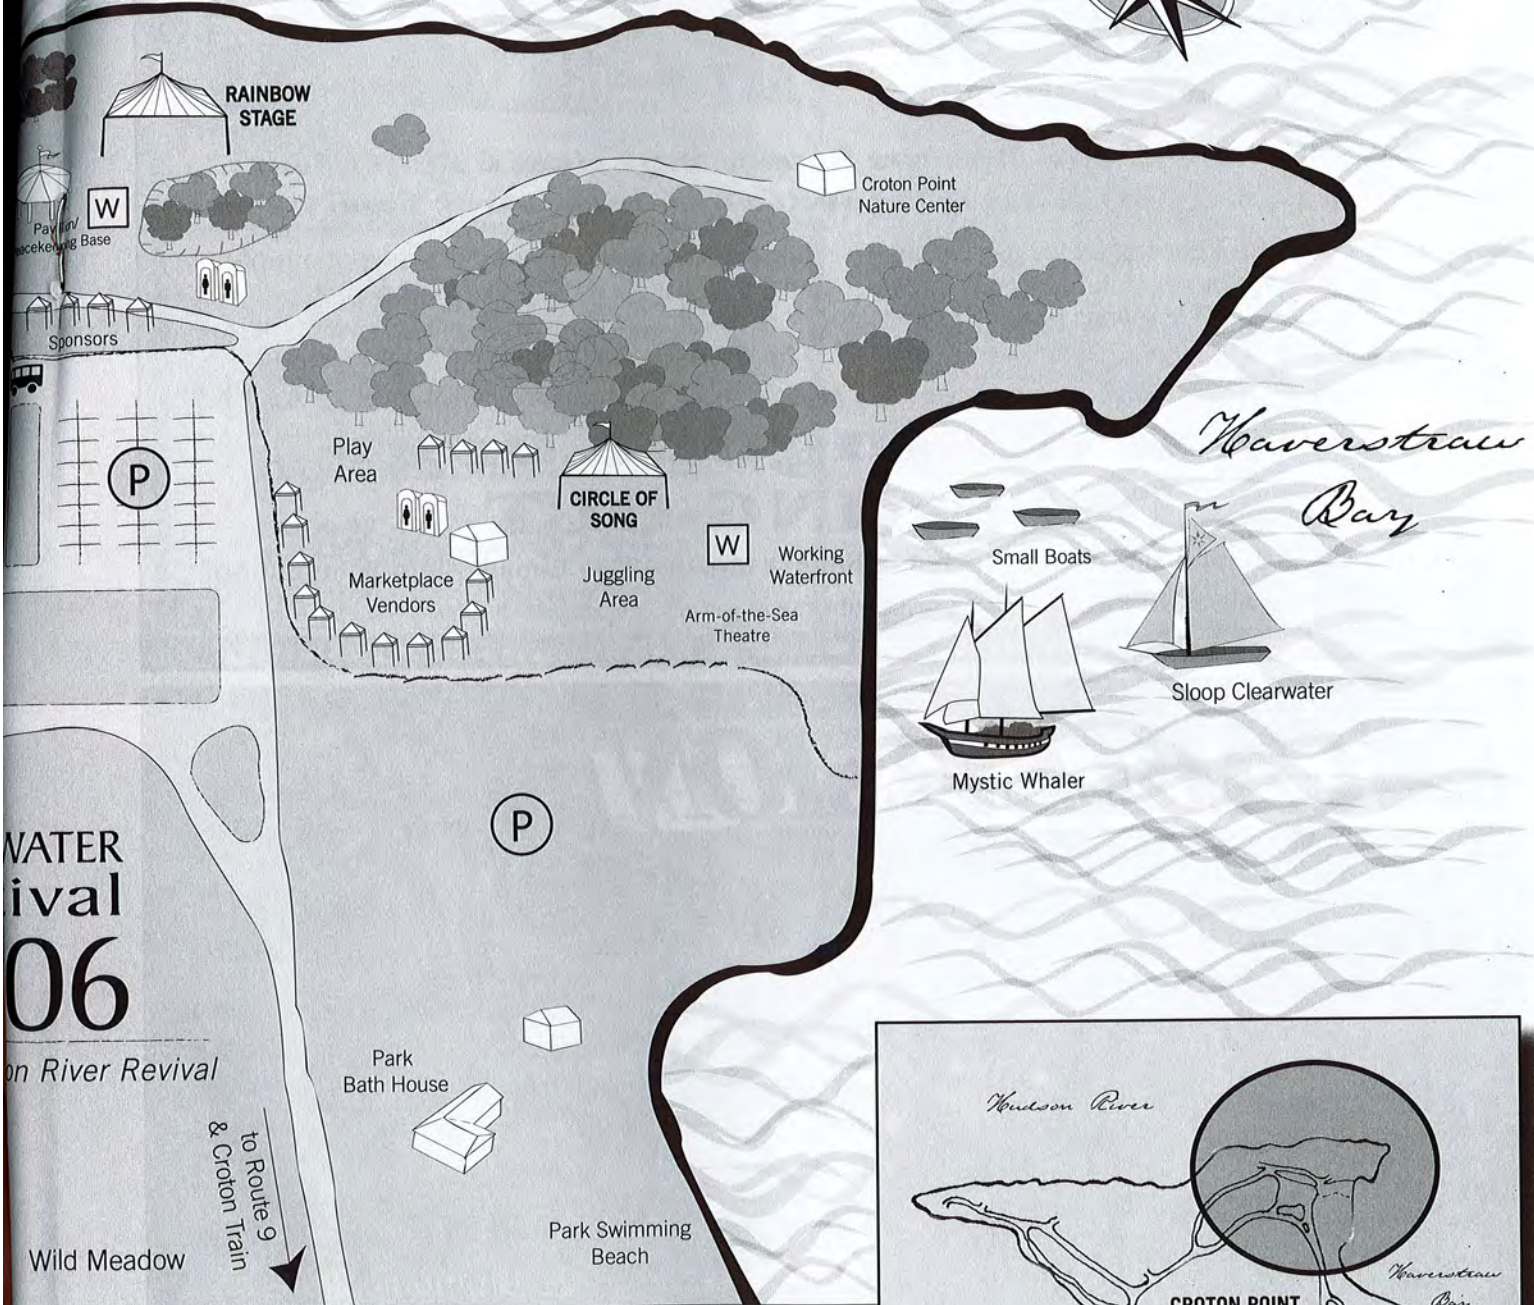

### PEACEKEEPING/SECURITY

For directions and help look for a Peacekeeper volunteer wearing an ORANGE VEST.

### RECYCLE

Use colorfully painted containers placed throughout the festival for glass and plastic bottles and cans.

**POISON IVY**

Poison Ivy is a-creepin' around the festival. Patches grow close to the ground and on trees and shrubs as hairy vines. Poison ivy is a three-leaf plant that's often shiny, sometimes dull, often dark green, sometimes light; however, there is always a trio of leaves at the end of each stem. If you come in contact with poison ivy, wash the affected areas immediately with soapy water and visit the First Aid tent if you feel itchy or a rash appears.

BRETT CONSTANTINE

## BRETT CONSTANTINE

Brett the Juggler teaches for a living and lives for juggling. As the instructor at Simply Circus he has taught hundreds of people to juggle. Be part of a record number at Clearwater this year and juggle your way home.

BRUCE ENGHOLM

## BRUCE ENGHOLM

Bruce Engholm, Chief Juggernaut, coordinates the Official World Juggling Day site. Visit him and learn to toss, twirl and perform other conversation stoppers. End klutzdom and become the first juggling maniac in your workplace.

CONSTANT WONDER

## CONSTANT WONDER

Constant Wonder is the award winning performing duo Connie Gillies (prolific songwriter and teacher) and Alice Weiser (actress/singer/dancer). These environmental educators combine original songs and interactive theater games with fun and laughs to inspire children to respect all of the world's wonders.

DAN BERN

## DAN BERN

Topical, intelligent, unpredictable—and fortunately, unable to hold his tongue, pen or music fingers! With an ability to be direct, amusing, musically on target and funny as well, Dan does his part to prove the Emperor has no clothes.

DAVIS BATES

## DAVIS BATES

Davis has been sharing stories and songs for more than 27 years. His recording of Family Stories won a Parents' Choice gold award. An old Clearwater crewmember, he also enjoys working on a family-owned nature sanctuary.

## DAVID GONZALEZ

Storyteller, musician, poet and Doctor of Arts, Gonzales received the Helen Hayes Performing Artist of the year award in 1998. He specializes in multimedia productions, turning music, paintings and fairytales into something totally new.

DAVID GONZALEZ

## DOC MARSHALLS

Led by Texas-raised Acadian Nicolas Beaudoin, the Doc Marshalls have quickly forged a reputation for their wildly energetic live shows. "Whether performing Cajun two-steps, Zydeco breakdowns or honky-tonk shuffles, these NYC troubadours have been packing dance floors throughout North America."

DOC MARSHALLS

## EARTH TONES

Good humor, a healthy dose of talent and member commitment has made this all-male a cappella group from SUNY Albany a successful and entertaining addition to the college scene. They are well known around campus and across the country.

EARTH TONES

## ERIC KOLLENBERG

Eric Kollenberg learned to juggle on a whim in 1996 and has been hooked ever since. He has performed with the Mid-Hudson Juggling Club at Renaissance Faires, parades, festivals and banquets.

ERIC KOLLENBERG

## GUY DAVIS

The routes, and roots, of his blues are as diverse as the music form itself. Call him a Renaissance Bluesman with an ability to tell stories from the past and into the future. He's a musician, composer, actor, director, writer and more.

GUY DAVIS

HOLLY NEAR

## HOLLY NEAR

Musician, educator, and activist, Holly refuses to separate her politics from her music. As an ambassador for peace, she integrates her immense vocal talent with world consciousness and spiritual discovery. Her latest release is *Show Up*, a metaphor for our times. She is accompanied by John Bucchino.

JANIS IAN

## J. PETER SCHUERHOLTZ

The jovial juggler is an artist who creates through drawing, painting, carving, photography, and juggling. Peter can also be found juggling his time painting signs for the festival. He says, "Keep juggling and fair winds to all!"

## JANIS IAN

Powerful singer/songwriter Janis Ian has done it all musically. She has returned to her roots in folk music with "Folk is the New Black," a "take no prisoners" album hitting hard politically and personally. Just as talented as she was decades ago!

JAY MANKITA

## JAY MANKITA

Jay is a masterful acoustic guitarist and singer/songwriter whose style combines blues, bluegrass, ragtime, ballads and swing. He writes and performs with honesty, compassion and a hefty dose of biting humor. He is thoughtful, irreverently funny and musically refreshing.

JJ WAFFLES T. CLOWN

## JJ WAFFLES T. CLOWN

Waffles T. Clown sings, plays guitar, and spoofs with audiences. He offers fun for children of all ages and politics for our changing times. His talent for "uplifting the spirit of the citizenry" will change the "New World Odor."

JOHN GORKA

## JOHN GORKA

Singer/songwriter and new folk bard, John Gorka offers sincerity and

warmth as he sings about freedom, the environment, social justice and change. A modern troubadour who still travels light and stays in touch with his New Jersey roots.

## KAREN WHITMAN AND RICK PANTELL

Great voices, unusual instruments, and a unique creative style. Combine a classical background and Balkan flair with American folk and rock, add humor to the songwriting style and there you have Whitman and Pantell's music for all ages.

KAREN WHITMAN & RICK PANTELL

## KAT MILLS

Long time Clearwater volunteer Kat Mills has a rich, powerful voice and a style that wows audiences.

Her acoustic style has been described as radiant and soulful. Kat has a large and loyal following on both sides of the stage!

KAT MILLS

## KATE DUDDING

As a storyteller and author, Kate Dudding enjoys telling stories to all ages, especially bringing history to life. She has told stories at many venues throughout the Northeastern US, including The New-York Historical Society, First Night Saratoga and The Norman Rockwell Museum.

KATE DUDDING

## LONNIE HARRINGTON

Musician, storyteller and author are some of the hats Lonnie Harrington wears. Of African/Native American heritage, he shares tales based on parenthood and the traditional and contemporary Indigenous stories he has heard during his years as a singer on the Pow Wow circuit.

LONNIE HARRINGTON

## LORRAINE HARTIN-GELARDI

Lorraine sees life as a story and tells tales for everyone, just about everywhere and anytime. Through an eclectic mix of literary tales, myths and folktales, she shares this ability with all.

LUCY KAPLANSKY

## LUCY KAPLANSKY

Singer/songwriter/psychologist Lucy Kaplansky weaves tales around life as she sees it, backed up by a versatile and strong voice and good instrumentals. She is an excellent performer whether interpreting the songs of others or delivering her own.

MAGPIE

## MAGPIE

With strong voices, powerful harmonies, and amazing versatility, musician/activists Terry Leonino and Greg Artzner are well known for their commitment to environmental and political issues. In the current political climate, their music is vital. Their recent release, *Songs for the Earth*, carries Rachel Carson's message.

THE MAMMALS

## THE MAMMALS

Dynamic, energetic, and creative as they push the boundaries of rock and traditional Appalachian music to create something new. Fine songwriting and musical excellence are hallmarks of The Mammals. Bring out your dancing shoes.

MATT TURK

## MATT TURK

Singer-songwriter and multi-instrumentalist Matt Turk, a Hudson Valley resident, performs in a variety of musical settings, ranging from alternative rock and folk to the world-beat of his side project Mandolin Caravan. His latest CD is *Washington Arms*.

MICHELLE SHOCKED

## MICHELLE SHOCKED

Versatile, creative, and unstoppable are all words used to describe Michelle Shocked. Stylistically distinct and unbelievably energetic, Michelle has just released three new albums, all very different, at the same time. Expect the unexpected as she takes us on a musical journey

## MEHREMA KICHILIEVA AND AISHE SADAKOVA

Mehrema ("Kera") Kichilieva and Aishe Sadakova are traditional Pomak (Bulgarian Moslem) singers from the village of Draginovo, near Velingrad (Bulgaria). They are visiting the U.S. for the first time to be recorded by the Smithsonian Museum..

MEHREMA KICHILIEVA AND AISHE SADAKOVA

## NEW JERSEY MASS CHOIR

The New Jersey Mass Choir with numerous awards and albums to its credit, was founded by Donnie Harper in 1983. This internationally known choir pioneered collaborations between gospel and secular music for the purpose of relaying a united message.

NEW JERSEY MASS CHOIR

## NORAH DOOLEY

Storyteller and author Norah Dooley performs throughout New England. She has appeared at many festivals. Her newest CDs are *Rabbitails* and *In the Borough*.

NORAH DOOLEY

## PAUL RICHMOND

"We are all jugglers one way or another," says Paul Richmond. His entertaining show requires audience participation. He uses storytelling and comedy to teach all ages the art form of juggling.

PAUL RICHMOND

## PETER, PAUL AND GEORGE

Get out your dancing shoes and prepare to move to contra, square, international folk dances, reels, jigs, polkas and waltzes. Peter Davis, Paul Rosenberg and George Wilson and friends are the cure for non-dancers! They have played together since 1994, converting children and adults into happy dancers.

PETE SEEGER

## PETE SEEGER

Folk legend, master storyteller, and Clearwater founder. Join Pete and his friends on a musical journey. Be prepared for surprises. Pete is featured at the Rainbow Stage, Circle of Song and will lead the Closing Ceremony.

## PETER SIEGEL

With hip hop, swing, political satire, blues, mandolin, banjo, guitar, percussion, and strong roots underpinnings, Peter Siegel's music can only be identified as Radical Space Age Vaudeville. As a teacher and family performer he seeks to get his audience moving and shaking, rapping and rhyming and, of course, thinking.

PETER SIEGEL

## PERFECT THYROID

## ROBERT DEMAYO

DeMayo is a deaf actor and drama teacher who has performed with many professional companies. He has directed, appeared in movies and currently works with Amaryllis Theatre Company in Philadelphia. He teaches at the Pennsylvania School for the Deaf in Philadelphia.

ROBERT DEMAYO

## ROGER THE JESTER

Roger the Jester, a self proclaimed fool, has an innate ability to improvise, creating true "live theatre." His skills as an object manipulator, silent comedian, magician and musician create a zany ride. He jests that he is now rated "XXX" after three decades of fooling.

STORY CRAFTERS

## STORY CRAFTERS

Barry Marshall and Jeri Burns have been crafting stories together for 13 years. They strive to honor world cultures by telling old stories in respectful ways, often integrating the musical instruments, songs or dances indigenous to the region in question.

STORY LAURIE AND IRA MCINTOSH

## STORY LAURIE AND IRA MCINTOSH

This dynamic duo combines traditional tunes with fantastic fables, magical myths, silly songs, playful poems and whatever else their wacky imaginations can create. Together, they are an electrifying pair who'll keep your toes tappin' and your smiles smilin'.

## TISH HINOJOSA

From the White House to el barrio, Tish Hinojosa has enchanted, enlight-

ened and entertained at the Clearwater Music Festival, husband and wife Tom Callinan and Ann Shapiro specialize in tandem-telling. Multi-instrumentalists, they are masters of generating audience participation via their warm and inviting style. Stories, music and more!

UNCLE WADE

## UNCLE WADE

Uncle Wade is a rustic-rootsy quartet from the Hudson Valley playing a mix of dusty blues, twangy classics and original songs inspired by those great writers, Anon. and Trad. This is their second Clearwater visit.

## VANCE GILBERT

A strong and powerful voice, well crafted songs and a sense of humor. Whether he is headlining or opening for George Carlin, Vance gives the same stellar performance. Add excellent guitar playing, artistry and soul and it is clear why he is in great demand.

## TO CLEARWATER'S PATRON FISH CONTRIBUTORS

The following patrons have helped make Revival 2006 a successful fundraiser with their tax-deductible contributions. This support helps Clearwater to fulfill its mission and complete its work for the river. A huge thank you to these generous 2006 Patron Fish.

### sturgeon

*The largest fish in the Hudson, the sturgeon looks like a cross between a shark and a stegosaurus—unchanged since it evolved about 200 million years ago.*

### striped bass

*The newsworthy striper has been at the center of the PCB controversy, stopping the Westway landfill, which would have destroyed its nursery grounds.*

SAIL ABOARD THE SLOOP FOR A WEEK

ECOLOGISMS

**WOULD SPENDING DAYS AND NIGHTS ABOARD A REPLICA OF A MID-19<sup>TH</sup>-CENTURY HUDSON RIVER SLOOP, SAILING ON THE RIVER VISITING SOME OF THE HUDSON'S MOST BEAUTIFUL AREAS, SEEM LIKE A GREAT WAY TO SPEND A WEEK? THEN COME CREW ON THE SLOOP *CLEARWATER!***

Come educate students of all ages about the Hudson River and at the same time be surrounded by beautiful Hudson River scenery. As a volunteer aboard the Hudson River Sloop *Clearwater* or her sister ship, the *Mystic Whaler*, you will live aboard the sailing vessel for a week and become part of her hardworking crew. Upon arrival, you will be trained with four or five other volunteers in the teaching stations we offer to groups that come aboard for our program. These stations could include Hudson River

history, fish, plankton, sailing, or water chemistry. As a volunteer, you will be expected to teach at least one of the 10-to-15-minute stations to students ranging from fourth grade to college age, perform very basic sailing duties, participate in boat chores, and be a role model for all of our visitors. **NO EXPERIENCE IN SAILING IS NECESSARY.** You will be helping out a great cause by inspiring people about the river, and it will prove to be a truly rewarding experience. Call (845) 454-7673 or see [www.clearwater.org](http://www.clearwater.org).
